# Strings Attached

Beginning in 1999, Will Taylor implemented a new idea after brainstorming with other local Austin musicians. Taylor began collaborating with both local and nationally renowned musical artists, rearranging their known material, brought in his own crew of seasoned jazz and contemporary roots musicians to play, and moved the performance venue from the traditional smoky club scene to the beautiful interior and excellent acoustics of a church sanctuary. Since then Will Taylor and Strings Attached have presented over 30 concert collaborations to over 8100 audience members, countless more through four KGSR Live Radio broadcasts, and many appearances on KUT, KLBJ, KMFA and KOOP Radio.

Will Taylor and Strings Attached have released 3 CD recordings. The most recent album entitled: "Live Vol. One" is a collection of live performances taken from the concert series. All proceeds from the recording benefit CASA of Travis County.

And though these individual group members are accomplished soloists, when they team up as Strings Attached, the landscape changes completely, as they expand the collaborative artist's vision into an other-worldly territory, without sacrificing the intent or spirit of the original works.
